

i40 GFS TRANSMITTER

GRAVIMETRIC FILLING SCALE CONTROL

You design production lines for prepackaged PRODUCTS, we ensure the metrological compliance of each dose.

STAY IN CONTROL

You have to get an approved dosing solution.

We have the solution that fits all your design choices: take control of the i40 GFS through the HMI of your PLC, regardless of its make.

STAY CONNECTED

Ensure remote maintenance and download batch information with the integrated web server.

A SAFE CHOICE...

Choosing an approved i40 GFS guarantees the value of each dose.

... IN ALL ENVIRONMENTS

Several stainless steel enclosure versions are available:

- Panel mounting
- DIN rail for integration in electrical cabinet
- Enclosure for tabletop use or wall mounting
